***Diversity/Careers* publisher named to Board of Visitors at NJIT honors college**

*Springfield, NJ, September 2001*

Roberta Renard, publisher of *Diversity/Careers in Engineering & Information Technology* magazine and CEO of parent company Renard Communications, has been elected to the Board of Visitors of the Albert Dorman Honors College of the New Jersey Institute of Technology (Newark, NJ). Renard was also appointed to the college's fundraising committee.

Renard Communications (Springfield, NJ) publishes *Diversity/Careers in Engineering & Information Technology*, a magazine and supporting website ([www.diversitycareers.com](http://www.diversitycareers.com)) that cover career issues for engineers and IT professionals who are women, minorities or people with disabilities.

Renard started the company in 1993 to publish *Diversity/Careers in Engineering & Information Technology*. "I realized that there was a need for a publication focused on technical careers for under-represented groups," she explains. *Diversity/Careers* has been a successful recruitment vehicle for a wide range of companies that want to reach out to the minority technical community.
